

## SANDISEKA FALENI ROADMAP FOR THE WEBSITE

### WEEK1

- Drafted my project as a wireframe in mockflow and also wrote some ideas that i will need on my website in a book..
- I search for ideas that will help me structure my website on youtube.
- I continue with the structure of my website with the ideas that I got from the internet.

### WEEK2

- After getting all the ideas from the internet I started creating my website.
- I started my coding using google ideas and my own ideas to make it very professional.
- I also used firebase to allow application data to synchronize across client and store on fire based cloud.
- I also manage to put google recaptcha.
- And also i upload my work to gitup
